DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 8.

ADA, OKLAHOMA TUESDAY EVENING, APRIL 18, 1911

NUMBER 11.

## I. HARRIS

SPECIALIST IN GOOD CLOTHES FOR MEN AND YOUNG MEN

**Y**OU'LL learn several new things about a clothing store when you come here. One is the advantage of picking out clothes from a stock of fine goods and nothing else. No store in Ada we are sure has ever brought together so large a stock of exclusive fine goods--Clothes, Hats, Furnishings, Shoes--as you'll find here.

Another thing you'll learn is that we serve our customers in a better way. We'll show you how its possible to be more interested in getting you what you want than in selling you something that you don't want.

### Young Men's Special Styles

Here's where fancy has full play--ultra fashion in model, in coloring, in patterns and weaves. It's the sort of things that young fellows are eager for. College and High School fellows, smartly dressed young business men--any man who wants extreme style with high quality--you're all invited.

## 325 FEET NEW BUSINESS BUILDINGS FOR TWELFTH STREET THIS SUMMER

**Legal and Binding Contract Entered Into Affords Positive Assurance that Ada Is Growing to a City this Summer.**

F. S. Houpt, W. H. Rayburn, Bart Roach, M. and O. F. Johnson, J. W. Bolen, Jno. P. Crawford, Lee Daggs, C. S. Aldrich and Tom D. McKeown have contracted among themselves and with Otis B. Weaver that structures shall be started within sixty days.

Legal and binding contracts have been entered into between all parties concerned to construct three hundred and twenty-five feet of two story, modern brick or stone structures along 12th street between Broadway and Townsend avenue, such construction on business lots to be covered to commence within sixty days and the balance of the construction to commence within ninety days.

The parties who have bound themselves to construct such important improvement are, F. S. Houpt, W. H.

Rayburn, M. Johnson, Bartholomew Roach, Tom D. McKeown and C. S. Aldrich.

J. W. Bolen, John P. Crawford and Lee Daggs have purchased from the city of Ada the four lots adjoining the city hall on the west with contracts incorporated in the deeds, that they shall commence within sixty days the construction of modern two story buildings. Thus the south side of 12th street between Broadway and Townsend avenue will be a line of modern two story business structures and on the north side of 12th there will be two hundred feet of two story brick business structures.

This 12th street building agreement represents the largest business building deal ever contracted in the city of Ada. The estimated aggregate cost of these constructions will be more than \$30,000, and will mean the employment of from seventy-five to one

hundred first class laborers throughout the summer.

### BINDING BUILDING AGREEMENTS.

This contract this day made by and between F. S. Houpt, Bill Rayburn, M. Johnson, O. F. Johnson, Tom D. McKeown and B. Roach, parties of the first part and Otis B. Weaver, party of the second part, witnesseth, that for a valuable consideration the said parties of the first part agrees and promises severally to begin a two story brick front building with stone or brick walls within sixty days from the date herein on the lots owned by them on the south side of 12th street, block No. 105, Ada, Okla., that is, the said Houpt & Rayburn agree to build such a building on lot No. 16, the said

McKeown agrees to build such a building on the two lots owned by him, the said Johnson agrees to build such a building on the lot owned by him, and the said Roach agrees to build such a building on the lot owned by him. This agreement is upon the consideration that all of the above parties carry out their part of this agreement and upon the further consideration that the four lots now owned by the City of Ada immediately west of the City hall be sold under a contract with the grantees that they shall construct such a building on all of said lots and shall begin the construction of same within sixty days from the date hereof, and in case such building shall be started in good faith within sixty days from this date by the grantees of the said city lots then and in that event the said parties of the first part agree and bind themselves into the said Otis B. Weaver and with each other to fully comply with all the terms of this contract.

This the 17th day of April, 1911.

## OKLAHOMA CONGRESSIONAL DELEGATION IN BUSY

Washington, D. C., April 18.--The Sixty-second Congress has organized and the democratic party is making good in the House. Already they have passed the direct election of Senators bill and the campaign publicity bill and are daily demonstrating to the country that they are fully capable of running the government.

The Oklahoma representation fared well in the committee assignments. Congressman Ferris and Carter landed on the committee on Indian affairs. Ferris was also landed on the committee on Public Lands and Carter was also placed on another good assignment. Senators Gore and Owen have not as yet received their assignments.

Senator Owen has introduced a bill providing for a department of public health, and also one providing for the admission into the union of Arizona and New Mexico.

Senator Gore has introduced a resolution calling upon the Secretary of the Treasury for a copy of the contract between the United States and the U. S. Express Co., which was entered into in April, 1889. He thinks some money may be saved there. He also introduced a bill appropriating two million nine hundred thousand dollars for the construction of public highways in the state of Oklahoma. This is but one half of what Oklahoma has contributed to the irrigation fund under existing law, which was raised from the sale of lands in the state and was set aside for irrigation. As there are no irrigation plants present or prospective in Oklahoma, the Senate thinks it is but fair to Oklahoma that she shall have at least one-half the money for public improvements and public highways.

Congressman McGuire recently made a speech in the House defaming the fair name and fame of Oklahoma. There was a lively contest waged for several days in the Senate for the position of minority leader. Senators Gore and Owen voted for Senator Shively and with the progressives.

The Oklahoma congressmen are besieged by applications for positions in the House. Hundreds of Oklahomans have applied, but, of course, as the jobs are limited, some of them will be disappointed.

## "ELEMENTS OF THE KINGDOM'S SUBJECTS"

EVANGELIST BLALOCK SHOWS  
ANALOGY BETWEEN THE  
CHILD AND THE KING-  
DOM'S SUBJECT.

Evangelist R. A. Blalock spoke last night at the First Christian church where he is leading in the revival meeting on the subject of "Elements of the Kingdom's Subjects."

It was a meeting of spiritual power. An impressive baptismal service was observed, a talented young lady being buried with the Lord in that sacred rite.

The meeting continues with unabated interest. The subject for tonight will be "Drawing Wages or Receiving a Legacy."

The speaker said in part, that when Jesus placed a little child before his disciples as an example of Christian character, He dealt a death blow to selfishness, avarice and greed.

What Jesus meant when he said, we must become as a little child before we can enter the Kingdom of God, was simply this. First a little child is perfect example of love, a

child's love is pure, is universal in its scope, the child loves all and hates none, loves its enemies, forgives those who wrong it.

Second a little child is a perfect example of faith, its faith is absolute, the child never doubts those in whom it believes. Third a little child is a perfect example of discipleship, the meaning of word disciple, is a learner, the little child is easy to learn, is teachable, does not try to teach the teacher, Christ is the great teacher, the Christian as a little child is easy to learn. Fourth a little child is a perfect example of a pure body, a pure soul can not live in an impure body, for if we have not the "spirit of Christ" we are none of His" and "know ye not that your bodies are the temples if the Holy Spirit.

God help us all to receive the Kingdom of God as a little child. God help us all to keep the temple of the Holy Spirit pure.

Yesterday afternoon quite a number of Methodist preachers left for Wetumka to attend the meeting of district conference. In the party were noted Revs. S. F. Goddard, E. M. Sweet and A. M. Dupree of Ada, A. W. Everett of Maud, J. D. Massey of Stratford, and W. L. Blackburn of Konawa.

### THE SITUATION IN MEXICO.

The situation in Mexico does not  
seem to warrant the hope that peace  
will be forthcoming in the immedi-  
ate future. That the government is in  
the most perilous position it has oc-  
cupied since the accession of Diaz to  
power thirty years ago, cannot be  
denied.

To an American there is much in  
the situation that is perplexing, be-  
cause there is such a vast difference  
in the temperament of the Latin-  
Americans and Anglo-Saxons. In  
our own country there is a constant  
welding together of the various  
types of the white race into one  
great loyal class of citizens which  
can be relied upon to stand for the  
maintenance of good government. In  
Mexico there is a great gulf fixed be-  
tween the old Spanish aristocracy  
and the common people that one of  
the latter can never hope to bridge.  
Naturally the lower class is discon-  
tented and at all times ready to en-  
gage in any enterprise that promises  
an opportunity to plunder their op-  
pressors. Patriotism means little to  
them, or if it does it is simply a  
vain hope of relief by overthrowing  
one popular idol and setting up an-  
other. Until Diaz seized the reins of  
power the man who commanded the  
most bayonets was the one who for  
a season posed as president. During  
the half century preceding his ac-  
cession the country had fifty-seven  
rulers, and he alone was able to  
command the power to hold together  
the various elements and raise Mex-  
ico from the dust of degradation to  
the plane of a nation respected by  
the world. That his methods have  
not always been in keeping with the  
American ideal, goes without saying,  
but it must be remembered that he  
has been confronted with different  
problems and that he has dealt with  
a people who were incapable of self-  
government. If he has been a czar, he  
has used his power wisely and Mex-  
ico has made much progress in all  
lines, including education. That  
Madero would rule as well or grant  
more liberty to the masses, is to be  
doubted. That he is only a political  
adventurer who seeks to profit from  
the credulity of the common people,  
may well be believed in view of the

well known characteristics of the  
Spanish-American race. That the  
United States will within six months  
have an army in the city of Mexico  
is not without the range of prob-  
ability.

### THE ELECTION.

Tuesday of next week is the date  
set for the election to determine the  
fate of Section 9. It is a knotty ques-  
tion and has good argument on both  
sides, but after due deliberation the  
writer has come to the conclusion  
that so far as he is personally con-  
cerned, he will vote for the repeal.  
The federal courts have stripped the  
state of just about every shred of  
power over the railroads anyway, so  
we see no harm that could come from  
the repeal of this section. If it will  
be the means of securing more roads,  
let us repeal.

It is probable that Ada is the only  
town of any size in the state that  
has no ordinance against vagrancy.  
It occurs to the News that one of the  
first things done by the new coun-  
cil should be the passage of a string-  
ent ordinance against vagrants of  
every description. The state law is  
about the real thing and enacted as  
a city ordinance would clothe the  
police with some much needed pow-  
er.

### THE INCOME TAX AMENDMENT.

For some time past the prospect  
for the ratification of the income tax  
amendment to the federal constitu-  
tion have looked exceedingly gloomy  
but during the last two or three  
weeks it begins to look better. Maine  
and Arkansas both went against it  
at first, but have reversed themselves  
and ratified it. It may be that the  
plutocrats of New York will yet be  
forced to come across with their  
share of taxes.

### A Home-Made Electric Incubator.

Spokane, Wash., April 18.—Sixty-  
nine healthy chicks from a setting of  
73 eggs have just been hatched by  
electricity on J. Don Alexander's  
ranch at Reimel's Station, Wash.,  
near Spokane. The initial test was  
so successful that 1,300 eggs will be  
placed in the incubators as soon as  
the apparatus can be installed. The  
equipment, which is not patented,  
can be attached to an ordinary oil-  
burning incubator at an expense of  
less than a dollar.

Construction of the electrically op-  
erated incubator is simple. Mr. Alex-  
ander took the lamps from the oil-  
burning machines and wound Ger-  
man silver wire around the frames  
above the egg trays, connecting the  
coils with an incandescent light cir-  
cuit. This is made through a con-  
tact device, consisting of a piece of  
iron fixed on the regulator arm to  
dip into a small cup filled with mer-  
cury.

When the temperature in the incu-  
bator rises to 103 degrees, the nat-  
ural hatching point, the iron arm  
is lifted automatically, shutting off  
the current until there is a fall of  
one-fourth degree. As a precaution  
against overheating in the event of  
failure of the controlling device, a  
piece of underwriter's fuse is placed  
in the circuit at the hottest part  
of the machine, thus shutting off  
the current at 105 degrees fah-  
renheit.

"The chicks we hatched in testing  
the machine the first time are of  
normal size and unusually lively,"  
Mr. Alexander said, adding: "Of  
course, I did not strike it the first  
time. I experimented several months  
with small settings before reaching  
what is said by poultry experts to  
be perfect incubating heat by elec-  
tricity. The reason I did not pro-  
tect the invention by patents is be-  
cause I want every farmer interest-  
ed in chicken culture to profit by  
my work without any expense on his  
part. I have nothing to sell."

### ADVISED TO CONFIRM

### APPOINTMENT OF TEACHERS

Oklahoma City, April 18.—All coun-  
ty superintendents of public instruc-  
tion have been advised by State Su-  
perintendent Wilson to follow the se-  
lection of school boards in making  
their appointments for teachers of  
the separate schools. The last legis-  
lature passed a bill giving the coun-  
ty superintendent power to appoint  
the teachers of separate schools. It  
was not at first thought that this  
applied to the cities, but a recent  
ruling by the attorney general holds  
that all separate schools in the state  
are included. In a number of cases  
the school boards have already se-  
lected teachers for separate schools.  
In order to avoid confusion or dis-  
pute of pay, Superintendent Wilson  
has advised that in such cases the  
same teachers already selected be  
appointed by the county superin-  
tendent.

Thursday Afternoon, April 20

### The Caloric

Is a complete cookstove and will cook practically every-  
thing that can be cooked on an ordinary stove or range. It  
is the only one that will bake and roast perfectly without  
first partially cooking food or reheating it before serving, as  
well as stew, steam, boil, etc. There is no cheaper nor bet-  
ter process of cooking. It will save at least seventy-five per  
cent in fuel alone and a wonderful amount of time, labor and  
discomfort. All the nutriment and delicious flavors of foods  
are preserved and the toughest cuts of meat are made ten-  
der and palatable. With the "Caloric" there is no danger  
of scorching or burning—everything perfectly cooked and  
ready to serve at your own convenience. It is used in thous-  
ands of homes, sanitariums, Domestic Science Schools, etc.

### BANK FAILURE AT MOUNTAIN PARK

Mountain Park, Okla., April 17.—  
The Citizens' bank of Mountain Park  
is in the hands of the state banking  
board, and three of its officials are  
under arrest, charged with accept-  
ing deposits after they knew the  
bank to be insolvent. The accused of-  
ficials are: R. H. Jones, vice-presi-  
dent; J. Will Jones, cashier, and D.  
C. Eagan, bookkeeper.

The bank had a capital of \$10,000  
and according to the varying state-  
ments, none of which are official, the  
failure is for somewhere between  
\$15,000 and \$20,000 though some say  
it will go higher. Bank Commission-  
ers J. D. Bennington and W. L. Reed  
who took over the bank Monday,  
have not made any statement as to  
the assets and liabilities.

Rumors are to the effect that lax  
management is largely responsible  
for the failure, and it is said that

poor loans had much to do with the  
trouble.

C. E. Jacks, president of the bank,  
was in Hobart Monday night and at-  
tempts to locate him by telephone  
were fruitless.

It is stated that a Mr. Beasley of  
Frederick, together with other cap-  
italists from that town, has agreed  
to take over the furniture and fix-  
tures of the bank and a new bank  
will be opened in the same building  
soon.

The three men arrested in connec-  
tion with the failure were arraign-  
ed before the Swanson county judge  
Monday, and were held under bonds  
of \$5,000 each. At the time of ad-  
journment of court the bonds had  
not been made.

## OK CEMENT CO. GETS STATE CONTRACT

The Oklahoma Portland Cement Co. has just been awarded the contract for 10,000 barrels of cement to be used in construction of the penitentiary buildings at McAlester. Six mills were represented in the contest for the material, and two of them were lower than the Ada plant, but on account of the recognized merit of the OK brand the board of affairs awarded the contract to this company.

## GWIN AND MAYS DRUG CO. MAKING IMPROVEMENTS

Gwin & Mays Drug Co. believe in keeping right up to date in every particular and when it comes to improving their store they are always right there with the goods. Just now they are having some extensive improvements made on the interior of their store, one big item of which is new paper which is being hung by P. G. Ingram. When everything is complete the store will have a fresh look about it which will be most attractive to the customers.

### Easter Rabbits.

Through an oversight the News neglected to mention in yesterday's paper the show window of the Mad-Ox Drug Co., Sunday. It was a typical Easter scene, eggs and all, and the effect was further heightened by the presence of a bunch of white rabbits.

### C. M. Chauncey Honored.

One of the first acts of the newly consolidated grand lodge of Odd Fellows was to show its appreciation of the work of C. M. Chauncey as grand secretary of the Indian Territory by electing him a life member of the grand lodge. It was a well merited honor, for he labored faithfully for the order during his two years of service, and as a result every dollar of indebtedness against the jurisdiction was wiped out six months before it was though possible. He was also offered the office of assistant grand secretary of the consolidated jurisdiction, but declined the offer.

## BIG BATTLE IN MEXICO

**FEDERALS GET THE WORST OF  
IT IN BATTLE NEAR AM-  
ERICAN BORDER.**

Agua Prieta, Mexico, April 17, via Douglas, Ariz., from the Associated Press Correspondent in the Field.—The most important battle of the Mexican revolution was fought here today and tonight between 1,600 fed-  
erals under command of Lieut. C. Diaz and 1,000 rebels under Balasario Garcia, and resulted in the repulse of the fed-  
erals.

The battle, however, was not finally decisive. It lasted from 6:30 a. m. until sundown. At nightfall two fed-  
eral machine guns were in posses-

sion of the rebels and the fed-  
erals had sustained a loss estimated by the rebels as at least 200 killed and wounded. The rebels gave their own loss as twenty.

### Rain of Bullets in American Territory

From the beginning of the battle, regardless of the warning given by the United States government to the leaders of both forces, a rain of bullets poured into the American town of Douglas, and when the day was over it was found that seven non-combatant residents of that city had been wounded. It was a day almost of terror in Douglas.

Dawn revealed the federal forces formed in fan-shaped battle line in the level country, almost a mile distant from Agua Prieta, with their machine guns in the center. They gave notice to the enemy of their approach with a hail of bullets from the machine guns, supported by rifle fire, their evident intention being to gain the international line with its

adobe guardhouses and from this vantage ground turn their fire upon the rebels.

### Rebels Pick Off Machine Gun Crews.

The insurgents directed their fire at the crews manning the machine guns, but the fire of the fed-  
erals was so fierce that it forced the rebels back to their second line of intrenchments.

The fed-  
erals advanced slowly. As they came nearer the fire of the rebels became more effective.

Leaving the protection of their breastworks, they moved out into the open, continuing to concentrate the fire upon the machine guns. The fed-  
erals, finding the rebel defense, after three hours' fighting, too strong to enable them to carry the trenches, began to retreat.

Presently the machine guns were silenced. Sharpshooters had made it impossible longer to man them.

### Exhausted Men Have to Rest Occasionally.

Sheer exhaustion occasionally caused a partial lull in the fighting.

At 11 o'clock the repulsed fed-  
erals had reformed and again advanced to gain the boundary line, masking their movement with heavy rifle fire.

The machine guns were silent. The rebels, encouraged by their early success, returned the fire eagerly.

The interval had been employed by the rebels in digging new trenches. The advance guard of the fed-  
erals in this attack consisted of fifty cavalrymen and 300 infantry. Behind them was a supporting party that kept under cover of trees and bushes. The fed-  
erals reserved their fire, but an increasing stream of bullets poured from the trenches.

These striking the dry earth, made it appear as though a dust storm was raging and for a time served to obscure a view of the conflict.

The advancing fed-  
erals again found the strength and determination of the insurgents too great for them. They fell back, but in good order, firing as they retired and left the field and their two machine guns in the possession of the enemy.

### A ROW AT TULSA.

The Tulsa school board has kicked up about the biggest row on record by discharging the present superintendent of the city schools. Supt. Masters has held his present position for a number of years and during his term the schools have made wonderful progress and are reckoned as being as efficient as can be found in the state. His discharge has led to an outburst of indignation that is seldom witnessed over such a matter. Not only have the patrons taken a very decided stand, but the pupils went on a strike and refused to go back to school until Supt. Masters asked them to do so.

### ARKANSAS DECLARES FOR INCOME TAX

Little Rock, Ark., April 17.—The Arkansas Senate today reversed itself on the income tax amendment, ratifying the amendment to the constitution of the United States. The vote was 26 to 6, and follows a vote in failure to ratify, taken only a few weeks ago in the upper house. Those opposing the measure held that it is not wise and would be undemocratic to establish this as a precedent of a National taxation. The ratification of the amendment followed a strong advocacy of the measure before the legislature by United States Senator Clarke of this state, in which he criticised the senate severely for its failure. The house has already taken favorable action.

### Kiowa City Marshal Shot.

Kiowa, Ok., April 17.—In an altercation here this evening between the city marshal and Dan Beats, a restaurant keeper, the former was shot just above the knee, shattering the bone, which will probably necessitate the leg being amputated. Mr. Beats received a shot through the body near the right nipple and will probably not recover. The shots were fired simultaneously.

### Sunflower Philosophy.

One trouble with baseball at this season of the year is inadequate facilities for heating the grounds. If you behave properly you aren't likely to have to figure much on the problems set forth in the average problem play.

It may not be possible for a man to love two women at the same time, but there are plenty of men who are willing to attempt the impossible. A number of things last longer than the kind of a ball and bat a boy gets thrown in with the purchase of a suit of clothes.

Tell a woman that another woman dresses well, and the listening dame will say, "She ought to," in a way that means a good deal.

BYRD'S MILL LINE.**

### FIVE BIDS ARE SUBMITTED

**The Lowest Bidder Gets It.—Will  
Cost a Little over \$16,000—Work  
to Be Completed in 100  
Days.**

The City Council held a breezy session last evening and for a time disposed of business a trifle more rapidly than usual. After some discussion of the minutes of the previous meeting Alderman Evans, as a member of the Committee which for the past year has been trying to sell the four lots next to the city hall belonging to the city, reported that he was offered \$4,000 for them with a contract to begin the erection of two story brick or stone buildings within sixty days. The committee favored the acceptance of the bid at once as it was the first offer yet made at that price, which price was agreed upon by the council about a year ago. Hope moved that it be referred back to the committee with instructions to find out if it were possible to get more and get all in sight for the property. Evans again explained how the committee had done its best and that this was the only time it had been offered the council's price for the lots, and that the parties purchasing wanted an immediate

### YOUR HAT

**May Be a Stylish One, But It Makes  
Trouble.**

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

## S.S.S. A REAL CURE FOR RHEUMATISM

So simple a thing as cloths dipped in hot water and applied to an aching joint, will often temporarily relieve the acute pains of Rheumatism. But everyone knows that such treatment would never permanently cure the trouble.

The usual cause of Rheumatism comes from weak kidneys, constipation, indigestion, etc., forming impure accumulations in the system. These sour and ferment, causing uric acid, which is absorbed from the stomach and intestines into the blood. This causes a partial fermentation of the circulation, which changes it from a thick, rich fluid to a thin, acid stream, depositing inflammatory matter into the muscles, nerves, and joints. The longer the blood is allowed to remain in this impure condition the more severe will Rheumatism become. Gradually the muscles harden and lose their elasticity, the joints begin to stiffen, and frequently calcareous deposits form knots at the finger joints.

I had Rheumatism for twenty years, sometimes being entirely laid up by it. It grew worse until my right knee was nearly twice its natural size, and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S., which I commenced. Before I had been using it long I was greatly relieved, and continuing the medicine I soon found that I was entirely cured. MRS. IDA M. PALMER, 189 Fulton St., Brooklyn, N. Y.

While at work in the swampy regions of Southeast Georgia, I completely helpless for about 4 months, and spent over \$150.00 with doctors, but got worse every day, and finally quit them and began S. S. S. I took several bottles, and was cured sound and well. My health is now splendid, and I weigh 175 pounds. I can recommend S. S. S. to all suffering from Rheumatism. S. C. LASSITER, Thomasville, N. C.

## 325 FEET NEW BUSINESS BUILDINGS FOR TWELFTH STREET THIS SUMMER

**Legal and Binding Contract Entered Into Affords Positive Assurance that Ada Is Growing to a City this Summer.**

F. S. Houpt, W. H. Rayburn, Bart Rouch, M. and O. F. Johnson, J. W. Bolen, Jno. P. Crawford, Lee Daggs, C. S. Aldrich and Tom D. McKeown have contracted among themselves and with Otis B. Weaver that structures shall be started within sixty days.

Legal and binding contracts have been entered into between all parties concerned to erect three hundred and twenty-five feet of two story, modern brick or stone structures along 12th street between Broadway and Townsend avenue, such construction on business lots to be covered to commence within sixty days and the balance of the construction to be completed within ninety days.

The parties who have bound themselves to construct such important improvement are, F. S. Houpt, W. H. Rayburn, M. Johnson, Bartholomew Roach, Tom D. McKeown and C. S. Aldrich.

J. W. Bolen, John P. Crawford and Lee Daggs have purchased from the city of Ada the four lots adjoining the city hall on the west with contracts incorporated in the deeds, that they shall commence within sixty days the construction of modern two story buildings. Thus the south side of 12th street between Broadway and Townsend avenue will be a line of modern two story business structures and on the north side of 12th there will be two hundred feet of two story brick business structures.

This 12th street building agreement represents the largest business building deal ever contracted in the city of Ada. The estimated aggregate cost of these constructions will be more than \$30,000, and will mean the employment of from seventy-five to one

hundred first class laborers throughout the summer.

### BINDING BUILDING AGREEMENTS.

This contract was made by and between F. S. Houpt, Bill Rayburn, M. Johnson, O. F. Johnson, Tom D. McKeown and B. Roach, parties of the first part and Otis B. Weaver, party of the second part, witnesseth, that for a valuable consideration the said parties of the first part agree and promises severally to begin a two story brick front building with stone or brick walls within sixty days from the date herein on the lots owned by them on the south side of 12th street, block No. 105, Ada, Okla., that is, the said Houpt & Rayburn agree to build such a building on lot No. 16, the said

McKeown agrees to build such a building on the two lots owned by him, the said Johnson agrees to build such a building on the lot owned by him, and the said Roach agrees to build such a building on the lot owned by him. This agreement is upon the consideration that all of the above parties carry out their part of this agreement and upon the further consideration that the four lots now owned by the City of Ada immediately west of the City hall be sold under a contract with the grantees that they shall construct such a building on all of said lots and shall begin the construction of same within sixty days from the date hereof, and in case such building shall be started in good faith within sixty days from this date by the grantees of the said city lots then and in that event the said parties of the first part agree and bind themselves into the said Otis B. Weaver and with each other to fully comply with all the terms of this contract.

## OKLAHOMA CONGRESSIONAL DELEGATION IN BUSY

Washington, D. C. April 18.--The Sixty-second Congress has organized and the democratic party is making good in the House. Already they have passed the direct election of Senators bill and the campaign publicity bill and are daily demonstrating to the country that they are fully capable of running the government.

The Oklahoma representation fared well in the committee assignments. Congressman Ferris and Carter landed on the committee on Indian affairs. Ferris was also landed on the committee on Public Lands and Carter was also placed on another good assignment. Senators Gore and Owen have not as yet received their assignments.

Senator Owen has introduced a bill providing for a department of public health, and also one providing for the admission into the union of Arizona and New Mexico.

Senator Gore has introduced a resolution calling upon the Secretary of the Treasury for a copy of the contract between the United States and the U. S. Express Co., which was entered into in April, 1889. He thinks some money may be saved there. He also introduced a bill appropriating two million nine hundred thousand dollars for the construction of public highways in the state of Oklahoma. This is but one half of what Oklahoma has contributed to the irrigation fund under existing law, which was raised from the sale of lands in the state and was set aside for irrigation. As there are no irrigation plants present or prospective in Oklahoma, the Senate thinks it is but fair to Oklahoma that she shall have at least one-half the money for public improvements and public highways.

Congressman McGuire recently made a speech in the House defaming the fair name and fame of Oklahoma.

There was a lively contest waged for several days in the Senate for the position of minority leader. Senators Gore and Owen voted for Senator Shively and with the progressives.

The Oklahoma congressmen are besieged by applications for positions in the House. Hundreds of Oklahomans have applied, but, of course, as the jobs are limited, some of them will be disappointed.

## "ELEMENTS OF THE KINGDOM'S SUBJECTS"

EVANGELIST BLALOCK SHOWS ANALOGY BETWEEN THE CHILD AND THE KINGDOM'S SUBJECT.

Evangelist R. A. Blalock spoke last night at the First Christian church where he is leading in the revival meeting on the subject of "Elements of the Kingdom's Subjects."

It was a meeting of spiritual power. An impressive baptismal service was observed, a talented young lady being buried with the Lord in that sacred rite.

The meeting continues with unabated interest. The subject for tonight will be "Drawing Wages or Receiving a Legacy."

The speaker said in part, that when Jesus placed a little child before his disciples as an example of Christian character, He dealt a death blow to selfishness, avarice and greed. What Jesus meant when he said, we must become as a little child before we can enter the Kingdom of God, was simply this, First a little child is perfect example of love, a

child's love is pure, is universal in its scope, the child loves all and hates none, loves its enemies, forgives those who wrong it.

Second a little child is a perfect example of faith, its faith is absolute, the child never doubts those in whom it believes. Third a little child is a perfect example of discipline, the meaning of word disciple, is a learner, the little child is easy to learn, is teachable, does not try to teach the teacher, Christ is the great teacher, the Christian as a little child is easy to learn. Fourth a little child is a perfect example of a pure body, a pure soul can not live in an impure body, for if we have not the "spirit of Christ" we are none of His" and "know ye not that your bodies are the temples if the Holy Spirit."

God help us all to receive the Kingdom of God as a little child. God help us all to keep the temple of the Holy Spirit pure.

Yesterday afternoon quite a number of Methodist preachers left for Wetumka to attend the meeting of district conference. In the party were noted Revs. S. F. Goddard, E. M. Sweet and A. M. Dupree of Ada, A. W. Everett of Maud, J. D. Massey of Stratford, and W. L. Blackburn of Konawa.

### THE SITUATION IN MEXICO.

The situation in Mexico does not  
seem to warrant the hope that peace  
will be forthcoming in the immedi-  
ate future. That the government is in  
the most perilous position it has oc-  
cupied since the accession of Diaz to  
power thirty years ago, cannot be  
denied.

To an American there is much in  
the situation that is perplexing, be-  
cause there is such a vast difference  
in the temperament of the Latin-  
Americans and Anglo-Saxons. In  
our own country there is a constant  
welding together of the various  
types of the white race into one  
great loyal class of citizens which  
can be relied upon to stand for the  
maintenance of good government. In  
Mexico there is a great gulf fixed be-  
tween the old Spanish aristocracy  
and the common people that one of  
the latter can never hope to bridge.  
Naturally the lower class is discon-  
tented and at all times ready to en-  
gage in any enterprise that promises  
an opportunity to plunder their op-  
pressors. Patriotism means little to  
them, or if it does it is simply a  
vain hope of relief by overthrowing  
one popular idol and setting up an-  
other. Until Diaz seized the reins of  
power the man who commanded the  
most bayonets was the one who for  
a season posed as president. During  
the half century preceding his ac-  
cession the country had fifty-seven  
rulers, and he alone was able to  
command the power to hold together  
the various elements and raise Mex-  
ico from the dust of degradation to  
the plane of a nation respected by  
the world. That his methods have  
not always been in keeping with the  
American ideal, goes without saying,  
but it must be remembered that he  
has been confronted with different  
problems and that he has dealt with  
a people who were incapable of self-  
government. If he has been a czar, he  
has used his power wisely and Mex-  
ico has made much progress in all  
lines, including education. That  
Madero would rule as well or grant  
more liberty to the masses, is to be  
doubted. That he is only a political  
adventurer who seeks to profit from  
the credulity of the common people,  
may well be believed in view of the

### THE ELECTION.

Tuesday of next week is the date  
set for the election to determine the  
fate of Section 9. It is a knotty ques-  
tion and has good argument on both  
sides, but after due deliberation the  
writer has come to the conclusion  
that so far as he is personally con-  
cerned, he will vote for the repeal.  
The federal courts have stripped the  
state of just about every shred of  
power over the railroads anyway, so  
we see no harm that could come from  
the repeal of this section. If it will  
be the means of securing more roads,  
let us repeal.

It is probable that Ada is the only  
town of any size in the state that  
has no ordinance against vagrancy.  
It occurs to the News that one of the  
first things done by the new coun-  
cil should be the passage of a string-  
ent ordinance against vagrants of  
every description. The state law is  
about the real thing and enacted as  
a city ordinance would clothe the  
police with some much needed pow-  
er.

### THE INCOME TAX AMENDMENT

For some time past the prospect  
for the ratification of the income tax  
amendment to the federal constitu-  
tion have looked exceedingly gloomy  
but during the last two or three  
weeks it begins to look better. Maine  
and Arkansas both went against it  
at first, but have reversed themselves  
and ratified it. It may be that the  
plutocrats of New York will yet be  
forced to come across with their  
share of taxes.

### A Home-Made Electric Incubator.

Spokane, Wash., April 18.—Sixty-  
nine healthy chicks from a setting of  
73 eggs have just been hatched by  
electricity on J. Don Alexander's  
ranch at Reiter's Station, Wash.,  
near Spokane. The initial test was  
so successful that 1,300 eggs will be  
placed in the incubators as soon as  
the apparatus can be installed. The  
equipment, which is not patented,  
can be attached to an ordinary oil-  
burning incubator at an expense of  
less than a dollar.

Construction of the electrically op-  
erated incubator is simple. Mr. Alex-  
ander took the lamps from the oil-  
burning machines and wound Ger-  
man silver wire around the frames  
above the egg trays, connecting the  
coils with an incandescent light cir-  
cuit. This is made through a con-  
tact device, consisting of a piece of  
iron fixed on the regulator arm to  
dip into a small cup filled with mer-  
cury.

When the temperature in the incu-  
bator rises to 103 degrees, the nat-  
ural hatching point, the iron arm  
is lifted automatically, shutting off  
the current until there is a fall of  
one-fourth degree. As a precaution  
against overheating in the event of  
failure of the controlling device, a  
piece of underwriter's fuse is plac-  
ed in the circuit at the hottest part  
of the machine, thus shutting off  
the current at 105 degrees fah-  
renheit.

"The chicks we hatched in testing  
the machine the first time are of  
normal size and unusually lively,"  
Mr. Alexander said, adding: "Of  
course, I did not strike it the first  
time. I experimented several months  
with small settings before reaching  
what is said by poultry experts to be  
perfect incubating heat by electri-  
city. The reason I did not pro-  
tect the invention by patents is be-  
cause I want every farmer interest-  
ed in chicken culture to profit by  
my work without any expense on his  
part. I have nothing to sell."

### ADVISED TO CONFIRM

### APPOINTMENT OF TEACHERS

Oklahoma City, April 18.—All coun-  
ty superintendents of public instruc-  
tion have been advised by State Su-  
perintendent Wilson to follow the se-  
lection of school boards in making  
their appointments for teachers of  
the separate schools. The last legis-  
lature passed a bill giving the coun-  
ty superintendent power to appoint  
the teachers of separate schools. It  
was not at first thought that this  
applied to the cities, but a recent  
ruling by the attorney general holds  
that all separate schools in the state  
are included. In a number of cases  
the school boards have already se-  
lected teachers for separate schools.  
In order to avoid confusion or dis-  
pute of pay, Superintendent Wilson  
has advised that in such cases the  
same teachers already selected be  
appointed by the county superin-  
tendent.

## Invites you to a Demonstration of the CALORIC FIRELESS COOKER

Thursday Afternoon, April 20

### The Caloric

Is a complete cookstove and will cook practically every-  
thing that can be cooked on an ordinary stove or range. It  
is the only one that will bake and roast perfectly without  
first partially cooking food or reheating it before serving, as  
well as stew, steam, boil, etc. There is no cheaper nor bet-  
ter process of cooking. It will save at least seventy-five per  
cent in fuel alone and a wonderful amount of time, labor and  
discomfort. All the nutriment and delicious flavors of foods  
are preserved and the toughest cuts of meat are made ten-  
der and palatable. With the "Caloric" there is no danger  
of scorching or burning—everything perfectly cooked and  
ready to serve at your own convenience. It is used in thous-  
ands of homes, sanitariums, Domestic Science Schools, etc.

## BANK FAILURE AT MOUNTAIN PARK

Mountain Park, Okla., April 17.—  
The Citizens' bank of Mountain Park  
is in the hands of the state banking  
board, and three of its officials are  
under arrest, charged with accept-  
ing deposits after they knew the  
bank to be insolvent. The accused of-  
ficials are: R. H. Jones, vice-presi-  
dent; J. Will Jones, cashier, and D.  
C. Eagan, bookkeeper.

The bank had a capital of \$10,000  
and according to the varying state-  
ments, none of which are official, the  
failure is for somewhere between  
\$15,000 and \$20,000 though some say  
it will go higher. Bank Commission-  
ers J. D. Bennington and W. L. Reed  
who took over the bank Monday,  
have not made any statement as to  
the assets and liabilities.

Rumors are to the effect that lax  
management is largely responsible  
for the failure, and it is said that

poor loans had much to do with the  
trouble.

C. E. Jecks, president of the bank,  
was in Hobart Monday night and at-  
tempts to locate him by telephone  
were fruitless.

It is stated that a Mr. Beasley of  
Frederick, together with other cap-  
italists from that town, has agreed  
to take over the furniture and fix-  
tures of the bank and a new bank  
will be opened in the same building  
soon.

The three men arrested in connec-  
tion with the failure were arraign-  
ed before the Swanson county judge  
Monday, and were held under bonds  
of \$5,000 each. At the time of ad-  
judgment of court the bonds had  
not been made.

## QUALITY

QUALITY is the thing of greatest importance in medicine. Without it the best efforts of the physician fail to produce the proper results.

### QUALITY

That is the reason for our insistence on getting prescription drugs of finest quality—of tested purity. It is because of our carefulness in this regard that our label on a prescription is a guarantee of goodness.

**C. M. Chauncey Honored.**  
One of the first acts of the newly consolidated grand lodge of Odd Fellows was to show its appreciation of the work of C M. Chauncey as grand secretary of the Indian Territory by electing him a life member of the grand lodge. It was a well merited honor, for he labored faithfully for the order during his two years of service, and as a result every dollar of indebtedness against the jurisdiction was wiped out six months before it was thought possible. He was also offered the office of assistant grand secretary of the consolidated jurisdiction, but declined the offer.

### THE SITUATION IN MEXICO.

The situation in Mexico does not  
seem to warrant the hope that peace  
will be forthcoming in the immedi-  
ate future. That the government is in  
the most perilous position it has oc-  
cupied since the accession of Diaz to  
power thirty years ago, cannot be  
denied.

To an American there is much in  
the situation that is perplexing, be-  
cause there is such a vast difference  
in the temperament of the Latin-  
Americans and Anglo-Saxons. In  
our own country there is a constant  
welding together of the various  
types of the white race into one  
great loyal class of citizens which  
can be relied upon to stand for the  
maintenance of good government. In  
Mexico there is a great gulf fixed be-  
tween the old Spanish aristocracy  
and the common people that one of  
the latter can never hope to bridge.  
Naturally the lower class is discon-  
tent and at all times ready to en-  
gage in any enterprise that promises  
an opportunity to plunder their op-  
pressors. Patriotism means little to  
them, or if it does it is simply a  
vain hope of relief by overthrowing  
one popular idol and setting up an-  
other. Until Diaz seized the reins of  
power the man who commanded the  
most bayonets was the one who for  
a season posed as president. During  
the half century preceding his ac-  
cession the country had fifty-seven  
rulers, and he alone was able to  
command the power to hold together  
the various elements and raise Mex-  
ico from the dust of degradation to  
the plane of a nation respected by  
the world. That his methods have  
not always been in keeping with the  
American ideal, goes without saying,  
but it must be remembered that he  
has been confronted with different  
problems and that he has dealt with  
a people who were incapable of self-  
government. If he has been a czar, he  
has used his power wisely and Mex-  
ico has made much progress in all  
lines, including education. That  
Madero would rule as well or grant  
more liberty to the masses, is to be  
doubted. That he is only a political  
adventurer who seeks to profit from  
the credulity of the common people,  
may well be believed in view of the

well known characteristics of the  
Spanish-American race. That the  
United States will within six months  
have an army in the city of Mexico  
is not without the range of prob-  
ability.

### THE ELECTION.

Tuesday of next week is the date  
set for the election to determine the  
fate of Section 9. It is a knotty ques-  
tion and has good argument on both  
sides, but after due deliberation the  
writer has come to the conclusion  
that so far as he is personally con-  
cerned, he will vote for the repeal.  
The federal courts have stripped the  
state of just about every shred of  
power over the railroads anyway, so  
we see no harm that could come from  
the repeal of this section. If it will  
be the means of securing more roads,  
let us repeal.

It is probable that Ada is the only  
town of any size in the state that  
has no ordinance against vagrancy.  
It occurs to the News that one of the  
first things done by the new coun-  
cil should be the passage of a string-  
ent ordinance against vagrants of  
every description. The state law is  
about the real thing and enacted as  
a city ordinance would clothe the  
police with some much needed pow-  
er.

### THE INCOME TAX AMENDMENT.

For some time past the prospect  
for the ratification of the income tax  
amendment to the federal constitu-  
tion have looked exceedingly gloomy  
but during the last two or three  
weeks it begins to look better. Maine  
and Arkansas both went against it  
at first, but have reversed themselves  
and ratified it. It may be that the  
plutocrats of New York will yet be  
forced to come across with their  
share of taxes.

A Home-Made Electric Incubator.  
Spokane, Wash., April 13.—Sixty-  
nine healthy chicks from a setting of  
73 eggs have just been hatched by  
electricity on J. Don Alexander's  
ranch at Reistmeyer's Station, Wash.,  
near Spokane. The initial test was  
so successful that 1,300 eggs will be  
placed in the incubators as soon as  
the apparatus can be installed. The  
equipment, which is not patented,  
can be attached to an ordinary oil-  
burning incubator at an expense of  
less than a dollar.

Construction of the electrically op-  
erated incubator is simple. Mr. Alex-  
ander took the lamps from the oil-  
burning machines and wound Ger-  
man silver wire around the frames  
above the egg trays, connecting the  
coils with an incandescent light cir-  
cuit. This is made through a con-  
tact device, consisting of a piece of  
iron fixed on the regulator arm to  
dip into a small cup filled with mer-  
cury.

When the temperature in the incu-  
bator rises to 103 degrees, the nat-  
ural hatching point, the iron arm  
is lifted automatically, shutting off  
the current until there is a fall of  
one-fourth degree. As a precaution  
against overheating in the event of  
failure of the controlling device, a  
piece of underwriter's fuse is placed  
in the circuit at the hottest part  
of the machine, thus shutting off  
the current at 105 degrees Fahr-  
enheit.

"The chicks we hatched in testing  
the machine the first time are of  
normal size and unusually lively,"  
Mr. Alexander said, adding: "Of  
course, I did not strike it the first  
time. I experimented several months  
with small settings before reaching  
what is said by poultry experts to  
be perfect incubating heat by elec-  
tricity. The reason I did not pro-  
tect the invention by patents is be-  
cause I want every farmer interest-  
ed in chicken culture to profit by  
my work without any expense on his  
part. I have nothing to sell."

### ADVISED TO CONFIRM

APPOINTMENT OF TEACHERS  
Oklahoma City, April 18.—All coun-  
ty superintendents of public instruc-  
tion have been advised by State Su-  
perintendent Wilson to follow the  
selection of school boards in making  
their appointments for teachers of  
the separate schools. The last legis-  
lature passed a bill giving the coun-  
ty superintendent power to appoint  
the teachers of separate schools. It  
was not at first thought that this  
applied to the cities, but a recent  
ruling by the attorney general holds  
that all separate schools in the state  
are included. In a number of cases  
the school boards have already se-  
lected teachers for separate schools.  
In order to avoid confusion or dis-  
pute of pay, Superintendent Wilson  
has advised that in such cases the  
same teachers already selected be  
appointed by the county superin-  
tendent.

### Demonstration of the CALORIC FIRELESS COOKER

Thursday Afternoon, April 20

#### The Caloric

Is a complete cookstove and will cook practically every-  
thing that can be cooked on an ordinary stove or range. It  
is the only one that will bake and roast perfectly without  
first partially cooking food or reheating it before serving, as  
well as stew, steam, boil, etc. There is no cheaper nor bet-  
ter process of cooking. It will save at least seventy-five per  
cent in fuel alone and a wonderful amount of time, labor and  
discomfort. All the nutrient and delicious flavors of foods  
are preserved and the toughest cuts of meat are made ten-  
der and palatable. With the "Caloric" there is no danger  
of scorching or burning—everything perfectly cooked and  
ready to serve at your own convenience. It is used in thou-  
sands of homes, sanitariums, Domestic Science Schools, etc.

Every Caloric Is Guaranteed

We hope every housekeeper will come and see how easy  
cooking can be made with the Caloric.

### BANK FAILURE AT MOUNTAIN PARK

Mountain Park, Okla., April 17.—

The Citizens' bank of Mountain Park  
is in the hands of the state banking  
board, and three of its officials are  
under arrest, charged with accept-  
ing deposits after they knew the  
bank to be insolvent. The accused of-  
ficials are: R. H. Jones, vice-presi-  
dent; J. Will Jones, cashier, and D.  
C. Eagan, bookkeeper.

The bank had a capital of \$10,000  
and according to the varying state-  
ments, none of which are official,  
the failure is for somewhere between  
\$15,000 and \$20,000 though some say  
it will go higher. Bank Commission-  
ers J. D. Bennington and W. L. Reed  
who took over the bank Monday,  
have not made any statement as to  
the assets and liabilities.

Rumors are to the effect that lax  
management is largely responsible  
for the failure, and it is said that

poor loans had much to do with the  
trouble.

C. E. Jacks, president of the bank,  
was in Hobart Monday night and at-  
tempts to locate him by telephone  
were fruitless.

It is stated that a Mr. Beasley of  
Frederick, together with other cap-  
italists from that town, has agreed  
to take over the furniture and fix-  
tures of the bank and a new bank  
will be opened in the same building  
soon.

The three men arrested in connec-  
tion with the failure were arraign-  
ed before the Swanson county judge  
Monday, and were held under bonds  
of \$5,000 each. At the time of ad-  
judgment of court the bonds had  
not been made.

Bad breath, bitter taste, dizziness

### HIDDEN QUALITIES.

Replying to a knocker a well  
known man is said to have exclaim-  
ed: "You can't always tell from ap-  
pearances. What if the man who dis-  
covered the oyster had never opened  
the shell?"

There is a whole sermon in that  
remark. Many men are unfortunate in  
their general makeup and are handi-  
capped in the beginning. Outside, ap-  
pearances are against them, but un-  
derneath the unpromising exterior  
beat hearts as honest and as true as  
ever beat in the breast of a king or  
president. It only needs some one  
with the power to discern their real  
worth and give them a chance to run  
the race of life along with the more  
fortunate. The diamond is only a  
rough stone until it passes through  
the hands of the polisher and the  
man who by a word of kindness or  
by extending a helping hand to the  
struggling one when it is needed,  
may do a far greater thing for the  
world than the one who brings out  
the sparkle of the diamond. Give the  
man who is making an effort to do  
something for himself a little en-  
couragement and a fair chance. He  
asks for nothing more and needs  
nothing more.

Some ambitious congressman has  
introduced a resolution submitting to  
the people the repeal of the Four-  
teenth Amendment to the United  
States constitutional and disfranchis-  
ement of the negro. Although the  
amendment was originally designed  
for the negro, the grandfather clause

completely nullified it that there  
might be little opposition to the re-

the big interests of the country  
have found in it a veritable haven of  
refuge. Through it they have made  
many escapes from the consequences  
of their wrong doings and would put  
up a terrific fight before permitting  
its repeal. This would be an easy  
thing to do without showing their  
hand, for a wonderful wave of sym-  
pathy for the poor oppressed negro  
would at once be started by the big  
interests. The amendment was de-  
signed to set a class free, but it has  
been the means of enslaving the  
whole population of the United States.

\*\*\*\*\*  
PRACTICAL POINTS FOR  
POST OFFICE PATRONS.  
\*\*\*\*\*

Are you a box holder at this office?  
If so, it was furnished for your con-  
venience. Do you appreciate this con-  
venience? If so, kindly read the fol-  
lowing extracts from the Postal Laws  
and Regulations, observe the require-  
ments and note a few suggestions  
following.

"Postmasters are required to see  
that box holders lock their boxes  
and are not permitted to rent boxes  
to persons who fail to keep them  
locked."

"Box renters are required to ex-  
ercise proper care in the use of boxes,  
that glass, locks, etc., be not un-  
necessarily damaged."

"Postmasters should refuse to re-  
rent boxes to those who, in their use  
persistently disregard the Postal  
Laws."

"The Department reserves the  
right to close ones box at any time  
prior to the expiration of a quar-  
ter without refunding any portion of  
the rent paid therefor, in all cases  
wherein by the use thereof, the Postal  
Laws have been violated."

"Box rents are payable Quarterly  
on or before the last day of the  
Quarter prior thereto and if the  
same be not paid as required, the  
box shall be closed, offered for rent  
and the mail placed in the General  
Delivery."

#### "Suggestions."

Keep your boxes locked. This is  
what they are for and for the pro-  
tection of your mail. Do not give your  
box combination to all your neigh-  
bors, it is your private property, but  
if you do and some of your mail is  
misplaced, you might have occasion  
to blame the Postmaster.

Boxes are automatic and lock them-  
selves when closed. Do not slam the  
door, push it to gently and it locks.  
Many boxes are out of order now  
because of this violation and sub-  
ject to being closed against you.  
There are over Eight Hundred boxes  
in this office and an average of five  
persons getting mail therein, have  
your correspondence directed to your  
box number as well as your name,  
this will insure prompt and accurate  
delivery and greatly assist us in  
serving you.

Use the same caution and care to  
your correspondence and us the same  
consideration that you expect us to  
give to your mail and note the re-  
markable improvement in the hand-  
ling of your mail.

Show us the same respect and  
courtesy that you do your banker,  
your merchant, and others with whom  
you come in contact in a business  
way and watch the illuminating  
smile spread over the faces of the  
employees of this office and they  
will be tickled to death to serve you  
as they are not used, to such treat-  
ment and I believe the effort would  
be the experiment.

Help us serve you, but do not do  
any more than you require of us  
and have a right to expect. That's  
what we are here for, that's our duty  
and what we mean to do and only  
ask you to co-operate with us for  
your own convenience.

Yours respectfully,  
U. G. WINN, Postmaster.

#### Hog Cholera Serum.

Stillwater, Okla., April 14.—The  
Third Legislature, recently adjourn-  
ed, appropriated \$7,500 to be ex-  
pended by the College in the manu-

manufacturing serum in limited  
quantities for some time and this has  
apparently of cholera in hundreds of

serum many times, and we hope by  
doing this to meet the expectation  
of the legislature and to practically  
stamp out the disease now so lar-  
gely prevalent in Oklahoma. Doses of  
serum will be supplied at twenty  
cents each and the amount receiv-  
ed will be placed in a revolving  
fund and reinvested in the manu-  
facture of serum. By adopting this plan  
we hope to cover all sections of Ok-  
lahoma with a comparatively small  
appropriation at our disposal. Some  
states have provided large sums for  
the campaign against hog cholera  
which has rendered it unnecessary  
to charge applicants for serum sent  
out.

Your co-operation and assistance in  
fighting this disease is desired and  
requested. The college will give fur-  
ther information upon application.  
J. H. CONNELL, President.

#### He Wanted All That Was Coming.

New York, April 17.—The night  
court here was treated to an unusual  
sensation just before midnight when  
Dominick Hearn, a Brooklyn resi-

dent, was fined \$10 for disturbing  
the peace. Hearn was ill pleased  
with the court's decision and ex-  
pressed his opinion in a loud tone.

"You'll wait a long time for that  
\$10, four eyes," he shouted to the  
spectacled magistrate.

"I'll change that fine and send you  
to the workhouse for twenty days,"  
said the magistrate.

"Aw, gwan, make it more," said the  
prisoner.

"Once more," shouted Hearn.

"Two months," said the magistrate.

"Do it again," sneered Hearn.

"Six months," adjudicated the court.  
Hearn then demanded a year and  
expressed his opinion of the court in  
caustic terms. It took three police-  
men to remove him from the court  
room.

"I wish I could have made it a  
year," said the magistrate. "Unfortu-  
nately six months is the limit."

#### Carter Demands Investigation.

Washington, April 15.—Represent-  
ative Charles D. Carter of Oklahoma  
wants an investigation of the causes  
that led to the displacing of D. C. Mc-

Curtain as chief of the Choctaws af-  
ter he was appointed, but before he  
could qualify for the office. To this  
end Representative Carter today in-  
troduced a resolution requesting the  
president to furnish to the house in-  
formation regarding the appointment  
of D. C. McCurtain as chief of the  
Choctaws and to transmit any let-  
ters, telegrams, endorsements or doc-  
uments bearing on the subject on  
file in either the department of ju-  
stice or interior department.

## THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 percent of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Reckall Orderlies are a positive, pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchasers' money in every case when they fail to produce entire satisfaction.

Reckall Orderlies are eaten like candy, they act quietly, and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effect. They are especially good for children, weak persons or old folks. Two sizes, 25c and 10c. Sold only at our store—The Reckall Store. The Gwin & Mays Drug Co.

## ITEMS FROM THE PUBLIC SCHOOLS

Eleven new pupils have enrolled during the past month bringing the enrollment up to 1351.

This has been the banner month for truants; the total number being 13. Most of this number played truant on the first day of the month, choosing to do extra work rather than miss a ramble in the woods on a beautiful spring day.

There are fifty-nine pupils in the eighth grade class this year, most of whom will graduate from the common schools next month. Of this number, twenty-one are in the North school and thirty-eight are in the

South school. The total enrollment in this grade during the year has been 91, 29 at North School and 62 at South school. Some of those have been demoted and a number have dropped out of school or moved away. The pupils took the state examination last week and all who have been successful will receive a common school diploma from the state which will admit them to any high school in the state.

Revs. Blalock and Anderson were visitors at the schools last week and the pupils were delighted with the splendid address delivered at chapel by Rev. Blalock. He gave an excellent picture of four stages of life, in such way as to make it interesting to both pupils and teachers.

There are only three more weeks of school and the pupils are beginning to think of summer days and how they will be spent. During the closing week a number of programs will be rendered by the primary, intermediate, and grammar grades. Definite announcements concerning these will be made later.

### Her Thirteenth Birthday.

Yesterday Miss Jewel, the daughter of Mr. and Mrs. R. C. Roland, celebrated her thirteenth birthday by entertaining a number of her little friends at a dinner. Those present were Misses Ruby Truax, Pearl Peay, Crispina Anderson, Minnie McSwain, Eula A. Berry, Bessie McSwain, Cleo Cook, Irene Keller, Roma McSwain, May Bennett, Bertha Bennett and Joaquina Tanner.

The News wishes the little lady many happy returns.

## GREAT SERVICES YESTERDAY

A FULL DAY AT THE MEETING AT THE FIRST CHRISTIAN CHURCH.

It was a great day yesterday at the First church of Christ where a meeting is being conducted by Evangelist R. A. Blalock of Wagoner.

At 9:45 a. m. enthusiastic Bible school services were held, with L. T. Walters superintending. One hundred and fifty-six were present and an offering was made for the orphanage work.

At 11 a. m. Mr. Blalock spoke on "The Supremacy of Love." It was an appeal for a life whose dynamic is love for God. Love gives, the gift determines the measure of love. It overcomes obstacles, and will make sacrifices were some of the points urged.

At the afternoon service for men only Mr. Blalock was at his best on the subject, "A Man's Job." It was possibly the greatest service of any during the meeting for spiritual power and uplift. A great audience of strong men were out and enough power was between the four walls of the church wrapt up in those men to shake Oklahoma in a mighty wave of righteousness. Another meeting will be held for men only next Sunday afternoon.

At 6:45 a splendid Christian Endeavor meeting was held conducted by R. W. Williams.

The closing service of the day begun at 6:45 with a lively song service conducted by L. T. Walters. It was inspiring and put the congregation in fine shape for the sermon on "A Voice From the Dead."

The audience taxed the capacity of the church. There were three confessions during the day, making twenty-eight so far during the meeting.

The services will continue. Tonight's subject being "Found Out at Last." A baptismal service will be conducted at the close tonight.

### Sermon to Men Only.

The speaker said in part, that what we need today is a strong pure manhood, the forces of evil are abroad in our land seeking the destruction of our fairest and purest daughters of our strongest and noblest sons.

The saloon and the brothel would destroy every home in Ada and would overthrow every law on the statutes of our great state that was placed there for the protection of our homes. Men I want to say to you that if these awful forces of evil which imperil the very life of our nation, are to be overthrown, or even kept within the bounds of safety to society, we must have an army of strong, courageous men to fight this battle.

Too long have some of us allowed our poor old mothers, our wives, sisters and daughters to fight this battle alone. Oh! my brothers, I appeal to you today in the name of your wives and little ones, arise in the strength of your manhood and fight, fight for your homes, fight for the wife who loves you, and for the children whom God has given you. Men, this work is too heavy for the women and the children to do it alone. This IS A MAN'S JOB.

The work of the church challenges the best in every man.

The noblest type of manhood on earth today, is found among the men who have given their lives to Christ, and who in the strength of their regenerated, purified, manhood are bravely fighting the forces of evil, which unhindered would destroy the last hope of human happiness.

God help us all to be men, men who are worthy the love of a pure woman, men worthy the devotion of innocent childhood.

## DIAZ PREPARING FOR CAMPAIGN

Mexico City, April 16.—A general call for volunteers to serve for a period of six months was posted in this capital today. The call is made to all citizens between the ages of 18 and 45 years who desire to lend their services to the country. The pay offered is one peso (50 cents) a day, besides clothing and equipment. The customary inducement of advancement in rank and to those who prove themselves.

In addition to the regular army including such volunteers as may be secured, the war department has at its disposal numerous volunteer organizations maintained by wealthy planters, mine owners and others.

Daily the government is offered the services of these men and while the cases of their acceptance have been rare, the department can at any time, by availing itself of their help of

men, increase its fighting force to the extent of many thousands.

This activity in the war department overshadows today the much talked of plans for peace. Both Mexicans and Americans in the capital were inclined to believe that the end of the revolution is still far off. Officially Mexico is not treating with the rebels. Day by day the desire for peace grows greater and government officials and business men hope that the unofficial negotiations begun at Washington may bear fruit.

Minister De La Barra continued today to express the belief that a compromise may be effected, but Dr. Vasquez Gomez at Washington and Francisco I. Madero in the field are probably the only two men who can say what the outcome will be. Tonight Minister De La Barra stated that the negotiations begun at Washington between himself and Dr. Vasquez Gomez had not reached a stage where he was able to state what the result would be.

### Giuseppe Garibaldi.

It was just a little more than fifty years ago that Giuseppe Garibaldi, the Italian patriot, electrified the world by the capture, with his red-shirted thousand, of the island of Sicily. During the six months between May 5, 1860, and November of that year, occurred the most remarkable of the exploits of his romantic life. He was the one man of the world who, with any prospect of success, could have led a revolutionary raid against 60,000 regular troops armed with good rifles and cannon. The raid which ended in the making of an Italian nation was made successful by the genius of a magnetic personality and the strategic skill of a soldier who had learned the craft of the guerrilla chieftain during the years he spent on the plateaus of South America.

A recent eloquent English historian, in writing of "the most romantic life that history records,"

Victor Emmanuel, and Italy was almost "made." Then came an act of self-abnegation very remarkable in the midst of the self seeking which is the inevitable accompaniment of even the most human enterprises. In November, 1860, he resigned the dictatorship of Sicily and Naples, and with a large bag of seed corn and a small handful of lira notes, he sailed back to his farm on the island of Capri, leaving Victor Emmanuel as the constitutional monarch of Italy. Here he lived the simple life until called by death on June 2, 1882.

On Easter Sunday Morning everybody who is anybody will be sure to appear in their very best attire. Ladies in their Easter hats and gowns, and gentlemen in their most perfect and most fashionable garments. Don't be conspicuous by your absence from the happy throng, or look a back number in out-of-date clothes. If your wardrobe is not up to the notch of excellence get a new outfit from H. CLAUDE PITT, Merchant Tailor. Clothes made by him are always superior in their style, exceptional in their fit and matchless in their finish. They are the satisfactory kind that assure satisfaction.
